would like to access a folder of N number of MP4/avi files (avi player) in a folder(s) of my laptop. I have a windows vista based
laptop(2GB RAM) & I can access that folder(s) only from my windows 7 laptop. I have tried accessing the folder(s) from
different directories in my vista laptop but the same thing is not happening in the same way. What is happening in my case is the
access are successful. I can view all the files(inside the folder). But, I can't open them in the player. I am able to open the files(in
the folder) in the player using vista laptop but how to open them in the folder using my windows 7 laptop?. Can anyone please
help me? If you need any other information, I will provide. Thank you. I would like to access a folder of N number of MP4/avi
